

RAVEN RESCUE

TECHNICAL RESCUE

TRAINING

The technical rescue training we provide is developed and certified by Rescue 3 International - the global leader in technical rescue training. We are the Official Agent for Rescue 3 in Canada. Through our affiliation with Rescue 3, we are able to provide certifications that are NFPA compliant - the standard-of-care in Canada and around the world.

Our courses are tailored to your workplace and your needs, so that you always get the skills you need, delivered in a way that is relevant to the work you do.

Technical Rope. Confined Space. Ice. Boat. Swiftwater. Fall Protection.

EQUIPMENT

Our equipment sales are not limited to one line of gear, so we're in the unique position of being able to recommend the best equipment for your needs from our range of major equipment suppliers.

We also know the relevant rescue equipment standards surrounding the gear you need for the work you do. We've done the reading - let us connect you with the right tools for the job.

CMC. New England Ropes. Conterra. Petzl. NRS. Rock Exotica.

Raven Rescue Ltd.

EXPAND YOUR OPERATIONAL RANGE

SERVICES

Hire certified and insured Technicians to manage your standby rescue and safety needs. Our rescue technicians can work as a stand alone resource, or in cooperation with your own safety team.

As subject matter experts, we are also able to provide highly trained and experienced personnel for onsite standby safety and rescue, site safety assessments, and legal opinions.
